Close Protection Services

"no assumption"

PROACTIVE PATROLS IN YOUR AREA

Over the years we have all seen crime increase. The efforts from various organisations, including Government, have not brought the crime rate down and armed response is just that: They RESPOND IF/WHEN there is either alarm activation or they are called. By then in most genuine emergencies they are: **TOO LATE**.

With the increase in crime, many response companies have started up and have made promises, at a premium, to protect you and your property by fighting crime and responding to your aid. **Well....**

Let's be fair. What is the response officer allowed to do? How much does the response officers know about your property, the area and the suburb? How much logistical or tactical backup does he have at his disposal? What are the response officer's medical skills? What are his tactical skills or experience? How often does he train, practice emergency drills and how often does he train with the weapon he has been placed in charge of. Also by responding to faulty alarm activations he is kept busy at homes where he really is not needed.

Is there a solution? **YES - AQUILA SPECIAL OPERATIONS!**

Aquila Special Operations is a company run by like-minded people with yours and your loved ones safety at heart. Their knowledge and experience has been earned over many years of training and operational experience in various aspects of the military, security and close protection industry.

Aquila through PROACTIVE PATROLLING can and will sterilise and secure the area you live in and will maintain that area and keep it safe and free of vagrants and the very worst of our society who wish to prey on the innocent and law abiding citizens of South Africa. YES, you do have the right to protection. The government seems incapable of providing it. **We will.**

We need your communities backing in order to do what we do best. **Direct Action and Zero Tolerance against crime and the circumstances that perpetuate crime.**
